Reflecting on this past year, I am reminded that we are all yearning for belonging. We are all connected in that way — in the want and need to love and be loved. This year has continued to force us out of our comfort zone as we meander through a pandemic and overcome the rising levels of anxiety and depression which has equated to more suicides, school shootings and other diseases of disappear.

The Jesse Lewis Choose Love Movement is actively part of the solution to the issues we see today in our world. Our programming, based on the simple and powerful *Choose Love Formula*, continues to transform lives by providing practices to work through suffering, enabling all to flourish. Teachers are reporting never before seen spikes in behavioral problems and mental health issues stemming from loneliness and hopelessness. Kids must feel safe in order to be present and learn and this is a struggle with the lack of consistency and mixed messaging. Choose Love addresses these concerns in a proactive way that works.

To better serve our communities, we’re taking our messaging on the road with the *Choose Love On the Move Tour*, holding community events where participants can practice Choose Love in action! After nine years, I know with every fiber of my being that the ‘*Nurturing Healing Love*’ message is cultivating hope, healing, and joy wherever it goes and it is needed now more than ever before.

I have dedicated my life to helping every child be their best self and overcome any obstacles they may be facing. There is something you can do to be part of the solution to the increasing pain and violence we’re experiencing in our schools and communities. When you have the courage to step outside of your busyness, distraction and even pain and suffering to help someone else, you have chosen love and by doing so have accomplished your part in creating the world that we all want to live in, one that is peaceful and loving and allows us to flourish. Together, we have and can change the world.

Choose Love
The Way Forward in Recovering from the COVID-19 Pandemic.

With the influx of funding given to school districts to respond and recover from the COVID-19 Pandemic, we at Choose Love provided information to school districts and educators re: ARP/ESSER funds to assist them in requesting funding and implementing SEL. Explaining how implementing Choose Love is the way forward to rebound from the negative effects of the pandemic, schools are onboardng with our full-service-SEL packages (including wellness workshops, training and support) to ensure all students and staff have the essential life skills and support they need to flourish.

Origins of Choose Love Movement

Scarlett Lewis founded the Jesse Lewis Choose Love Movement after her son, Jesse, was murdered during the Sandy Hook Elementary School tragedy in December 2012. It is one of the worst mass shootings in U.S. history. At six years old, Jesse, alongside 19 of his first-grade classmates and six educators, died. Law enforcement says Jesse used his final moments to heroically save nine of his friends. Shortly after his death, Scarlett discovered a message Jesse had written on their kitchen chalkboard. It was written phonetically, as it would have been by a six-year-old, but it read, “Nurturing Healing Love.” Scarlett knew instantly that if the shooter had been able to give, and receive love, the tragedy would never have happened. The three words of Jesse’s message are included in the definition of “compassion” across all cultures.

Scarlett realized that love, connection, and belonging are universal wants and needs that connect all of humanity. She set out on a mission to teach as many people around the world about this message, beginning with children. These three words (Nurturing Healing Love) led to the creation of a formula that can be used by anyone, at any time, anywhere in the world to manage their response to any situation. The Choose Love Formula™ is based on the profound result of practicing the character values inherent in “Nurturing Healing Love,” which are: Courage + Gratitude + Forgiveness + Compassion-in-Action.

These four character values are powerful yet easy to learn. When practiced, they strengthen the health and resilience of individuals, improve the community and culture of groups, and promote a safer, more peaceful and loving world. This simple but powerful formula serves as a foundation for all of the Movement’s unique and one-of-a-kind programming, products and services that spans all ages and has been implemented in schools, homes and communities spanning the globe.
